**Dallas Airmotive Launches AOG Mobile Vehicle Service  
For Southern California**

Orlando, Florida...October 19, 2009...BBA Aviation Engine Repair and Overhaul (ERO) company Dallas Airmotive will introduce an AOG Mobile Repair vehicle to Southern California to provide engine services. The vehicle will be fully equipped to perform on-site engine diagnosis and repair including hot section inspection of Honeywell APU units and module exchange for Rolls-Royce 250 series engines. The vehicle will be dispatched on demand and will be positioned at the Signature Flight Support facility in Van Nuys while servicing the Southern California basin.

The new unit is the third such vehicle in use by Dallas Airmotive. Other vehicles serve the Northeast U.S. out of Teterboro, New Jersey and the Southeast U.S. out of West Palm Beach, Florida. Dallas Airmotive's first AOG mobile vehicle entered service in 2006 and the second in 2007. All provide OEM-authorized service.

"AOG Mobile Response vehicles help extend the reach of our Field Service organization and Regional Turbine Centers," stated BBA Aviation ERO President Hugh McElroy. "The advantages of our mobile service are numerous including lower repair cost, less downtime, no aircraft repositioning expense, and no rental engine requirement. As we implement our long-term strategy of moving deeper into regional services, we'll continue to add vehicles and, where appropriate, Regional Turbine Centers in order to provide local, quick response service to operators."

Each AOG mobile vehicle is outfitted with all the tools and shop materials necessary to provide on-site APU hot section inspection, APU compressor carbon seal changes, Rolls-Royce Model 250 module maintenance and exchange, PW305 IBR inspection, plus engine removal and replacement, non-destructive testing, LRU replacement and more.

In addition to its AOG Mobile Response vehicles, Dallas Airmotive operates ten Regional Turbine Centers in the USA plus one in the United Kingdom and one in Brazil. The company also operates major engine repair and overhaul facilities in four locations: two in the Dallas-Fort Worth area, one in Neosho, Missouri and one in Portsmouth, England.

Additional information about AOG Mobile Response services and all BBA Aviation ERO service offerings can be found by calling +1 214-956-3001 in the U.S.A., +44 (0)23 9230 4000 in the U.K., or viewing the company website at [www.BBAAviationERO.com](http://www.BBAAviationERO.com).

**(Note to Editors)**

BBA Aviation's engine repair and overhaul companies are primarily engaged in the repair and overhaul of gas turbine engines plus parts support. Under the name Dallas Airmotive, the company operates facilities at two locations in Dallas-Fort Worth metropolitan area plus its Premier Turbines division in Neosho, Missouri and its H+S Aviation affiliate in Portsmouth, England. Dallas Airmotive also maintains a network of Regional Turbine Centers across the United States, Brazil and in England. The combined companies form a world leading, OEM-authorized, independent provider of services for Pratt & Whitney Canada PT6A/T, JT15D, PW100, PW300, PW500 and PW901 APU; Rolls-Royce Spey, Tay and Model 250/T63/T703; General Electric CF34, CT7/T700, and J85; Honeywell TFE731, HTF7000, CFE738, ALF502L engines, and the Honeywell Model 36, 331-200/250 and RE100 series APUs; and the Hamilton Sundstrand T40-1 APU. In addition to its overhaul and repair facilities, BBA Aviation Engine Repair and Overhaul operates two parts supply companies: International Turbine Service (ITS) and Barrett Turbine Engine Company. Headquartered in Grapevine, Texas, the combined companies employ more than 1,100 personnel who service business aviation, regional airline, military and government agencies worldwide. For more information, please visit [www.BBAAviationERO.com](http://www.BBAAviationERO.com).

BBA Aviation plc is a publicly held corporation traded on the London stock exchange. BBA Aviation serves two primary markets – Flight Support and Aftermarket Services and Systems. Flight Support includes refueling, cargo handling, ground handling and other services to business and commercial aviation customers. The Aftermarket Services and Systems activities include repair and overhaul of turbine engines, supply of aircraft parts, design, manufacture and overhaul of landing gear, aircraft hydraulics and other aircraft equipment. Operating companies and their subsidiaries include Dallas Airmotive, Signature Flight Support, ASIG, APPH, Premier Turbines, International Turbine Service, International Governor Services, Ontic, Barrett Turbine Engine Company, and H+S Aviation.
