**Premier Turbines Creates Center of Excellence for Rolls-Royce M250;
Reconfigures Neosho Facility**

Orlando, Florida...March 5, 2011...BBA Aviation Engine Repair and Overhaul (ERO) company Premier Turbines has established a Rolls-Royce Center of Excellence for its M250 Authorized Maintenance Repair and Overhaul Center (AMROC) in Neosho, Missouri. In establishing the center, the company has completely reconfigured the facility a to 60,000 sq. ft. footprint incorporating lean operating techniques while increasing its output capabilities.

“We have reconfigured our M250 repair and overhaul facility to streamline the process and flow,” stated BBA Aviation ERO President Hugh McElroy. “Premier Turbines is one of the world’s leading Rolls-Royce authorized M250 service centers and this reconfiguration is designed to enhance its capabilities and speed the work flow. This change is especially timely as we have seen both our civil and military helicopter engine businesses grow over the past two years.”

Premier Turbines offers repair and overhaul on both the M250 and its T63 military variant. The Neosho Center of Excellence provides a full range of services including repair and overhaul of engines, modules, accessories and components. The facility also includes a Rolls-Royce correlated test cell and is ISO 9001:2008 and ISO 14001:2004 certified.

Premier Turbines is exhibiting at Heli-Expo at **Booth 4806**.
