**Dallas Airmotive Adds PW306C Hot Section Inspection Service at Dallas Love Field Regional Turbine Center**

Las Vegas...October 9, 2011...Dallas Airmotive, a BBA Aviation Engine Repair and Overhaul Group (ERO) company, has added PW306C engine Hot Section Inspection service to its list of capabilities at its Dallas Love Field Regional Turbine Center (RTC).

“We are beginning to see PW306C engines approaching their first recommended hot section inspection interval,” commented Hugh McElroy, President of BBA Aviation Engine Repair and Overhaul Group.

The Dallas Love Field Regional Turbine Center offers repair and hot section inspection on PT6A, JT15D, PW300 and PW500 engines. The Dallas RTC is one of a network of 12 in the U.S., UK, and Brazil that offer repair services on a variety of engine models. The newest RTC will open in Singapore in February of 2012.

Dallas Airmotive is a Pratt & Whitney Canada Designated Overhaul Facility (DOF) for the PW305A, PW305B, PW306A, PW306C, PW308A and PW308C engines. The company is also appointed under Pratt & Whitney Canada’s ESP® (Eagle Service Plan™) engine program.

Dallas Airmotive is exhibiting during NBAA 2011 at BBA Aviation’s Booth #3900. Additional information can be found on the company’s website at [www.BBAAviationERO.com](http://www.BBAAviationERO.com).

## 2- Dallas Airmotive adds PW306C services at DAL

**(Note to Editors)**

BBA Aviation's Engine Repair and Overhaul group of companies is primarily engaged in the repair and overhaul of gas turbine engines and parts support. Operating under the names Dallas Airmotive, H+S Aviation and Premier Turbines, the combined companies form a world leading, OEM-appointed, independent provider of services for Pratt & Whitney Canada PT6A/T, JT15D, PW100, PW300, PW500 and PW901 APU; Rolls-Royce Spey, Tay and Model 250/T63/T703; General Electric CF34, CT7/T700, M601/H80 and J85; Honeywell TFE731, HTF7000, CFE738, ALF502L engines, and Honeywell Model 36, 331-200/250 and RE100/RE220 series APUs; and the Hamilton Sundstrand T40-1 APU. Dallas Airmotive operates facilities at two locations in Dallas-Fort Worth metropolitan area plus a network of Regional Turbine Centers across the United States, Brasil and in England. Premier Turbines is located in Neosho, Missouri. H+S Aviation is located in Portsmouth, England. In addition to its overhaul and repair facilities, BBA Aviation Engine Repair and Overhaul operates two parts supply companies: International Turbine Service and Barrett Turbine Engine Company and one component and accessory repair and overhaul company International Governor Services. Headquartered in Grapevine, Texas, the combined companies employ more than 1,000 personnel who service business aviation, regional airline, military and government agencies worldwide. For more information, please visit [www.BBAaviationERO.com](http://www.BBAaviationERO.com).

BBA Aviation plc is a leading global aviation support and aftermarket services provider with market-leading businesses and attractive growth opportunities. BBA Aviation's Flight Support businesses (Signature Flight Support and ASIG) are focused on the refueling and ground handling of business and commercial aviation aircraft. Its Aftermarket Services and Systems businesses (Dallas Airmotive, Premier Turbines, H+S Aviation, International Turbine Service, Barrett Turbine Engine Company, International Governor Services, Ontic and APPH) are focused on the repair and overhaul of jet engines and the manufacture and service of aerospace sub-systems and components.
