**2009: A Year of Growth for Dallas Airmotive
Regional Turbine Centers and Field Service Support**

Orlando, Florida...October 19, 2009...BBA Aviation Engine Repair and Overhaul (ERO) company Dallas Airmotive achieved significant year of growth for its Regional Turbine Centers (RTC) and Field Service organization during 2009. Two additional RTCs were opened during the year – one in Wichita, Kansas and one in Belo Horizonte, Brazil – bringing the total to 12 worldwide. Additionally, Field Service Representatives were positioned in Johannesburg, South Africa, Mumbai, India and Belo Horizonte, Brazil.

“Becoming more local and thereby more accessible to our customers wherever they are around the globe is a key element of our long-term strategy,” stated BBA Aviation ERO President Hugh McElroy.

“Business aviation in particular is gaining in acceptance as more corporations continue take on a global footprint. It should not be surprising that operators prefer a local presence rather than having to deal across long distances. This is why we are looking outward in our growth plans so that we can accommodate the needs of operators as they literally spread their wings.”

Dallas Airmotive currently operates 12 Regional Turbine Centers and employs more than 100 Field Service Technicians (FSRs). The FSRs are available 24 hours a day, 7 days a week for dispatch anywhere in the world. Among their services, they assist operators in diagnosing engine problems, performing field repairs, and completing engine removals and reinstallations.

“Establishing a field service operation in a region is the first step in developing an expanded presence for the long term,” commented McElroy. “We’re keeping an eye on growth trends around the world and are ready to respond with the appropriate support when the time is right.”

Additional information about Dallas Airmotive Regional Turbine Centers, field service and all BBA Aviation ERO service offerings can be found by calling +1 214-956-3001 in the U.S.A., +44 (0)23 9230 4000 in the U.K., or viewing the company website at www.BBAAviationERO.com.

(Note to Editors)

BBA Aviation’s engine repair and overhaul companies are primarily engaged in the repair and overhaul of gas turbine engines plus parts support. Under the name Dallas Airmotive, the company operates facilities at two locations in Dallas-Fort Worth metropolitan area plus its Premier Turbines division in Neosho, Missouri and its H+S Aviation affiliate in Portsmouth, England. Dallas Airmotive also maintains a network of Regional Turbine Centers across the United States, Brazil and in England. The combined companies form a world leading, OEM-authorized, independent provider of services for Pratt & Whitney Canada PT6A/T, JT15D, PW100, PW300, PW500 and PW901 APU; Rolls-Royce Spey, Tay and Model 250/T63/T703; General Electric CF34, CT7/T700, and J85; Honeywell TFE731, HTF7000, CFE738, ALF502L engines, and the Honeywell Model 36, 331-200/250 and RE100 series APUs; and the Hamilton Sundstrand T40-1 APU. In addition to its overhaul and repair facilities, BBA Aviation Engine Repair and Overhaul operates two parts supply companies: International Turbine Service (ITS) and Barrett Turbine Engine Company. Headquartered in Grapevine, Texas, the combined companies employ more than 1,100 personnel who service business aviation, regional airline, military and government agencies worldwide. For more information, please visit www.BBAAviationERO.com.

BBA Aviation plc is a publicly held corporation traded on the London stock exchange. BBA Aviation serves two primary markets – Flight Support and Aftermarket Services and Systems. Flight Support includes refueling, cargo handling, ground handling and other services to business and commercial aviation customers. The Aftermarket Services and Systems activities include repair and overhaul of turbine engines, supply of aircraft parts, design, manufacture and overhaul of landing gear, aircraft hydraulics and other aircraft equipment. Operating companies and their subsidiaries include Dallas Airmotive, Signature Flight Support, ASIG, APPH, Premier Turbines, International Turbine Service, International Governor Services, Ontic, Barrett Turbine Engine Company, and H+S Aviation.
