**Brent Hornbeck Joins BBA Aviation ERO
as Manager of Phoenix Regional Turbine Center**

Dallas, Texas...April 5, 2011...Brent Hornbeck has joined Dallas Airmotive, a BBA Aviation Engine Repair and Overhaul Group (ERO) company, as manager of the company's Regional Turbine Center in Phoenix, Arizona.

"Brent's background has all the attributes we seek in an RTC manager," stated Mike Cumnock, Vice President, Regional Operations/Service for BBA Aviation ERO. "He has broad capabilities across many aircraft types and experience in both airframe and power plant technology. His substantial background in service, quality, operations and customer service is second to none. We're very pleased to find someone with his qualifications to manage our Phoenix operations."

Hornbeck has more the 25 years of experience in the aviation industry as a maintenance manager and technician. Most recently he was Customer Project Manager at Hawker Beechcraft Services in Mesa, Arizona. His experience includes 11 years working on Hawker Beechcraft products including PT6A and JT15D powered products. He has a similar experience level working on rotor wing aircraft and Rolls-Royce M250 engines.

Hornbeck holds an Airframe and Powerplant license and has a degree in Professional Aeronautics from Embry Riddle Aeronautical University. He was active duty in the U.S. Army from 1983-1991 and a veteran of Desert Storm.

The Dallas Airmotive Phoenix Regional Turbine Center, located at Deer Valley Airpark, performs hot section inspection and repairs on PT6A and JT15D engines, line service on PW500 engines, and overhaul and repair on Rolls-Royce M250 turboshaft engines.

(Note to Editors)

BBA Aviation's Engine Repair and Overhaul group of companies is primarily engaged in the repair and overhaul of gas turbine engines and parts support. Operating under the names Dallas Airmotive, H+S Aviation and Premier Turbines, the combined companies form a world leading, OEM-authorized, independent provider of services for Pratt & Whitney Canada PT6A/T, JT15D, PW100, PW300, PW500 and PW901 APU; Rolls-Royce Spey, Tay and Model 250/T63/T703; General Electric CF34, CT7/T700, and J85; Honeywell TFE731, HTF7000, CFE738, ALF502L engines, and Honeywell Model 36, 331-200/250 and RE100 series APUs; and the Hamilton Sundstrand T40-1 APU. Dallas Airmotive operates facilities at two locations in Dallas-Fort Worth metropolitan area plus a network of Regional Turbine Centers across the United States, Brazil and in England. Premier Turbines is located in Neosho, Missouri. H+S Aviation is located in Portsmouth, England. In addition to its overhaul and repair facilities, BBA Aviation Engine Repair and Overhaul operates two parts supply companies: International Turbine Service (ITS) and Barrett Turbine Engine Company. It also operates International Governor Services, a turbine engine control repair and overhaul company. Headquartered in Grapevine, Texas, the combined companies employ more than 1,000 personnel who service business aviation, regional airline, military and government agencies worldwide.
